## ABSTRACT:

PURPOSE: To provide the subject improver useful in medical field, containing fenofibrate as active ingredient.

CONSTITUTION: The objective improver containing, as active ingredient, fenofibrate or its combination with pharmaceutically permissible additive(s). Its administration route is e.g. oral, injection, mucosal. Its dose is, in terms of the amount of the fenofibrate as the preparation ingredient, normally 10-800 mg/day, 5-300mg/day, and 5-400mg/day, for oral, injection, and mucosal administration route, respectively. This improver, which can improve the hypofunction of hemangioendothelial cells in arteriosclerosis, hypertension, diabetics, etc., is useful for the therapies of angiopathy in these diseases.
